

PIONEERS IN MODULAR HOUSING MULTISYSTEMS

QUALITY POLICY

Quality, Environment and Occupational Health & Safety Policy

GLASSART® S.A. operates in the field of manufacturing multi-housing systems that cover a wide range of applications and are easily adapted to the customer's needs, offering solutions for every housing request. The company's goals are to fully satisfy the requirements of its customers and minimizing the impacts of its activities on both the environment and the health and safety of its employees. To achieve these goals, the company implements a comprehensive quality, environmental and occupational health and safety management system, complying with the requirements of the international standards ISO 9001, ISO 14001 and ISO 45001 respectively.

To achieve these goals, the company's Management is committed to:

- the sustainable development of the company, recognizing the potential risks and opportunities that arise during its activity and meeting the requirements of interested parties.
- to fully comply with the applicable national and EU legislation concerning both its operation and environmental protection and occupational health and safety,
- to make every effort to satisfy the requirements, wishes and expectations of its customers, through continuous improvement of the quality of products and services provided,
- to make every effort to reduce its environmental footprint and minimizing risks to occupational health and safety,

- to establish annual goals and objectives for quality, environmental protection issues and occupational health and safety, enabling and encouraging employees to participate in their formulation and implementation, providing all the necessary resources,
- to provide effective training to staff, promoting professionalism, knowledge and responsibility, focusing on the continuous improvement of their abilities and skills,
- to consult with employees on the formulation and implementation of measures for the protection of the environment and occupational health and safety, focusing on prevention and the free dissemination of information without fear of retaliation.

The company's Management assumes responsibility for evaluating the results in achieving its goals and objectives and to review this Policy in terms of its continued effectiveness and suitability.
